You cannot start a new questionnaire until the previous one is complete or deleted

 Questionnaire was sent remotely on 23/04/2024

Incomplete Self-Completed Questionnaire	Version	Actions

Then you are done. You can resend the link if needed.

When using this method, it is important that the young person has support around them if needed. Some of the questions may unintentionally cause emotional distress, so having someone with them, or nearby when they complete the Circles questionnaire is strongly advised.
